# TRAFFIC MARKER

**Traffic Marker provides sediment control for construction areas with vehicle traffic.**

Common applications include work site entrances/exits, bridges, and stream crossings.

- Easy to move with attached handles; reusable from site to site
- Lightweight pine straw fill material; dries out quickly
- Durable, high-visibility outer mesh
- Easy to store and handle; securely packaged
- Use with other Filtrex BMPs

## TRAFFIC MARKER

Diameter	Mesh Color	Fill Material	Unit Length	Units/Pallet
9 inch	● orange	Pine straw	15 ft	10
9 inch	● orange	Pine straw	22 ft	10

**Note: Stakes not included on Traffic Marker products.**
